SUBJECT:

6-Month Remote Software Engineering Internship (Distributed Systems) — Hands-on Projects in Kafka, gRPC, Docker, GraphQL & TypeScript with Stipend up to ₹15,000/Month & Direct SDE Pre-Placement Offers (PPO)

100% Remote • BE / B.Tech (Batch 2026 & 2027) • Dual-Track Opportunity (Stipend & Non-Stipend Tracks) • Fee: ₹50 + 18% GST (Manual Review) • Full-Time PPO Post Graduation

STRICT ELIGIBILITY	WORK MODE	SELECTION TRACKS	FEE & STIPEND
BE / B.Tech (CS, IT, AI)	**100% Remote**	**Dual-Track Path**	**₹50+GST • ₹15k/mo**
Batches 2026 & 2027 only	Flexible hours alongside college	Stipend or Non-Stipend Track	Manual Review • Direct PPO

Dear Engineering Students, Faculty Guides & Placement Officers,

Dezinet Private Limited is inviting applications from passionate **BE and B.Tech students in Computer Science, IT, and AI branches** for our **6-Month Remote Software Engineering Internship (Distributed Systems)**. Dezinet offers a **dual-track engineering opportunity**: candidates shortlisted for the stipend-based track (₹15,000/month) work directly under our core engineering team, while eligible candidates join on the non-stipend track (provided candidates upload a formal profile photo, upload their resume, mark all 15 curriculum tasks as completed on their student dashboard, submit the mandatory college confirmation form, and attend their technical interview conducted from **25th October to 20th November 2026** directly by our senior engineering team including company directors). Applications require a nominal processing fee of **₹50 + 18% GST**because automated resume scanning tools are not used for internship applications—every candidate's code and GitHub repository are evaluated manually by senior engineers.

HIRING & INTERNSHIP JOURNEY: STEP-BY-STEP FROM APPLICATION TO JOB OFFER

CLEAR 6-STEP WORKFLOW

Step 1: Submit Application with GitHub Links

Visit **dezinet.com/opportunities/internship** and submit your application with projects in Kafka, gRPC, Docker, GraphQL, or TypeScript. Nominal fee ₹50 + 18% GST covers individual manual engineering evaluation (no automated scanning tools used).

Step 2: Manual Review & Dashboard Login

Our engineering leads manually review your application and repository. Once submitted, you immediately receive your unique Application ID and credentials to log in at **dezinet.com/login** to upload your formal photo, resume, and track 15 onboarding tasks.

Step 3: Technical Discussion & Mandatory College Form

Interviews are held **25 Oct – 20 Nov 2026** directly with senior engineers and company directors. Candidates submit the mandatory **College Requirement Confirmation Form** (downloadable at **dezinet.com/required_information.pdf**) certified with college guide name and official college seal. Selected interns join the core stipend track (₹15,000/mo) or non-stipend track upon completing dashboard requirements and interview. Formal **Offer Letter** issued for college NOC.

Step 4: Architecture Onboarding (Months 1 to 3)

You are paired with a senior software engineer who acts as your mentor. You learn our distributed architecture, write event schemas, and build microservices with live code reviews on pull requests.

Step 5: Paid Remote Development (Months 4 to 6)

You take ownership of live feature modules and microservices. Interns who deliver on schedule receive a monthly stipend of **₹15,000/month**, alongside signed monthly progress sheets for their college faculty.

Step 6: Internship Completion Letter & SDE Job Offer (PPO)

Upon completing the 6 months, you receive your official **Internship Completion Letter** and a direct **Pre-Placement Offer (PPO)** for a full-time software developer role after your degree.

Mandatory Project Prerequisites

Applicants must have built projects with: **Apache Kafka** (events/queues), **gRPC** (proto services), **Docker** (compose setups), **GraphQL** (APIs), or **TypeScript** (type-safe backend).

Application Deadline: 4th November 2026 • Interviews: **25 Oct – 20 Nov 2026** (Directly by Senior Engineering Team & Directors) • Fee: **₹50 + GST** (Manual Review).

ONLINE APPLICATION • REMOTE SDE INTERNSHIP

Scan QR Code with Your Phone Camera to Apply

Visit **dezinet.com/opportunities/internship** or scan the QR code to apply. Make sure your GitHub profile is public and contains working code samples for review. Download the mandatory College Requirement Form at **dezinet.com/required_information.pdf**.

100% Remote | Dual Selection Tracks | Stipend: ₹15,000/mo or Non-Stipend | Fee: ₹50 + GST
